ZULAFLY

ZulaFly means Safety.

Every day, parents entrust the well-being of their children to school leaders. Do you have every angle covered to ensure each student can learn, thrive, and safely return home each day? How about staff members? Are they able to efficiently alert the correct people whenever an emergency or urgent matter arises? ZulaFly's passion for creating a secure environment makes our solution a perfect fit for any school. Staff can instantly alert designated people of safety issues inside or outside of the building. The tagging and locating feature brings visibility to the location of visitors, allowing administration to catch unusual movements. Not only is student and staff security maximized, but valuable equipment can also be tracked throughout the building, ensuring it doesn't get misplaced or leaves campus without someone knowing. Additionally, real-time reports and custom dashboards help you see everything the way you want it at the time it's most critical.

That's ZulaFly Safety.

**Let us be
your fly on
the wall.**
