ZULAFLY

ZulaFly means Visibility.

When your customers are comfortable, their stay is successful. But what about your employees? Are they laboring in comfort or working each floor in nervous isolation? ZulaFly's solution allows staff members to easily alert of duress at the push of a button. Efficiency also reaches new heights with the tagging and locating feature, allowing valuable equipment or easy-to-lose tools to be quickly located, saving time and money. Want to wow family-oriented guests with second-to-none service at your hotel or resort? Offer ZulaFly's technology to them and they can track children at the pool, game room, or anywhere throughout the facility. In the meantime, a simple button press allows a youngster to alert in a moment requiring assistance or attention. Additionally, real-time reports and custom dashboards help you see everything just the way you want it.

That's ZulaFly Visibility.

**Let us be
your fly on
the wall.**
