ZULAFLY

ZulaFly means Flexibility.

Without a doubt, mobile devices have become our most indispensable hub of critical information. ZulaFly's Fuzion app ensures your most urgent alerts reach the correct people in a timely manner, even if they're away from the workplace. Users can take advantage of ZulaFly's features and functions in the palm of their hand wherever they are. Large, vast facilities often create a maze of confusion for those unfamiliar with the surroundings. With the map feature, no longer will people be left roaming and wondering, "Where's Room 302?" or "How do I find the primary storage area?" Viewing data, receiving notifications, finding equipment, or even adding notes to an out-of-range fridge or freezer are examples of the powerful information the Fuzion mobile app brings to your workplace.

Security for your Active Workplace.

**Let us be
your fly on
the wall.**
