

Enterprise Solutions

Asset Management

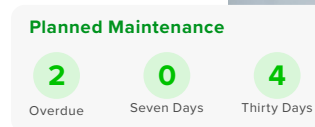

In a bustling healthcare environment, valuable equipment can often get lost in the shuffle, impacting both patient care and financial performance. The ZulaFly platform provides a comprehensive hospital equipment tracking and management solution, improving efficiency and patient experience.

- Real-time asset utilization
- PAR-level management
- CMMS integrations
- Rental optimization

EXPECTED OUTCOMES

- Reduce search time and increase engagement with patients
- Increase equipment utilization to reduce dependency on rentals
- Save valuable nursing time searching for equipment
- Reduce equipment hoarding

BENEFITS

Tag & Locate

Immediate visibility to your entire fleet of equipment for various workflows.
